## Network information

Subnet IP address:

---

---

---

Location:

---

---

---

If you have any problems completing this section, your network support specialist should be able to help. He or she can then contact IOP Publishing for assistance if necessary ([custserv@iop.org](mailto:custserv@iop.org)).

You can register class B subnets, class C subnets or individual IP addresses (or ranges thereof). We need to know the first two sets of numbers for each class B subnet (e.g. 130.111) or the first three sets of numbers for each class C subnet (e.g. 193.61.240). If you have a range of subnets then please supply them in this format: 193.61.1 to 254.

All of the IP addresses you list must be registered so that they can be looked up on regional registries. Please specify the location of each subnet you register (e.g. Physics Department, University of Pennsylvania, Philadelphia, PA).
